The name Zombieland conjures up a vision of a zombie-themed amusement park -- and that's exactly what this film is. Visually stylish and the most laughs I've had at the movies in a long time. A really solid script and nice underlying story really helps make this so much more than just a bunch of awesome zombie kills. That being said, this film feels as if you're playing a really badass zombie killing video game. Thanks to 'Natural Born Killers', Woody Harrison has just the right cult status and persona for this type of film, which is intended to pay homage to the great zombie 'B' movies of yesteryear, but really is a great zombie 'A' movie with today's style & sensibility. Jesse Eisenberg (who has a certain Michael Cera shyness/centricity to his delivery, but doesn't seem nearly as pathetic as Cera's characters often come off) carries the film well. And of course, everyone is talking about the film's 'secret' cameo, and rightly so. It is absolutely the best and most fun part of an already awesomely fun film -- and it kept me laughing almost non-stop throughout that 10-15 minute section of the movie. This is a zombie-comedy that deserves to take it's place amongst the best of the genre, 'Shaun of the Dead' and 'Army of Darkness'. In fact, what I wouldn't give to see a triple feature of these films at a drive-in theater on Halloween... the perfect place and time for a zombie feeding. The zombie invasion is a more than prolific genre for developing video games for Android. The example is found in Zombieland, a clicker style third person shooter inspired by the movie of the same name in which we have to repel the zombie hordes that come after us. Click on the screen to shoot The mechanics of this game is simple: click on the screen as many times as necessary to open fire against the undead who want to finish us off. And like every good action game the level of demand of the enemies will be higher and higher so we will have to equip our character with new weapons as we earn money. But besides equipping ourselves with better weapons we will also be able to add new gunmen to our team that will increase our fighting capacity. The game is fun, easy to play and quite addictive because as we advance we can discover new weapons, characters and scenarios where the action will take place. These are its main characteristics Form a varied group of heroes with characters created for the game. Go through the post-apocalyptic version of different American cities like Atlanta, Boston or Washington DC. Improve your weaponry as you make money.
